Mexico, Haiti and Costa Rica

Focal point: Benjamin Roche (IRD) and
Gerardo Suzán (UNAM)

Country selection criteria:

- Prezode member
- Country from the South
- zoonosis hotspot
- Ongoing One Health projects & activities
- Political will and mobilization
- Pre-existing and strong partnerships

Geography

The intervention will be implemented in boarder provinces in Lao PDR and Thailand, which will help prevent zoonotic transboundary diseases and enhance regional One Health collaboration.

Local

Local communities, NGOs and civil societies: AVSF, ALIGHT, WCS, WWF

Regional

Provincial and district administrations

National

Department of Disease Control - Ministry of Public Health of Thailand

Dept Livestock, Department of National Parks

Department of Communicable Disease Control - Ministry of Health of Lao PDR

Dept of Livestock & Dept of Forestry

Centre Infectiology Christophe Mérieux du Laos

Regional

Mekong Basin Disease Surveillance (MBDS)

International

WOAH, WHO, FAO, UNEP, CDC, IUCN, UNESCO

Component 1

Co-diagnosis

Knowledge and gaps
Policies & legislation
Risk assessment tools
Research done
Data (access / sharing)

Component 2

Co-construction

Prioritization

System thinking
Diseases, socio-ecosystem

Theory of Change

Targets
Actions
Indicators

Impact assessment

Policies
Prevention
One Health + environment

Implementation (local)

Multi-actors
Co-design

Achievements (and capitalization)

Prevention, mitigation
Sustainability

Component 3

Smart surveillance

Ecosystem level
Wildlife interface

Co-development

Component 4

Gender

Gender inequality assessment

Gender parity

Gender role & inclusion
